

## DOWN BY THE WATER

1.

Down by the water everything's peaceful,  
time goes by slowly, just like a swan.  
But if you listen and look around you.  
You'll find that there is so much going on.

Du-du-du-du...

*Yes if you listen and look around you.  
You'll find that there is so much going on.*

REFRAIN

All the fish swimming swimming swimming – coming and going.  
All the birds singing singing singing – singing their song.  
All the bees buzzing buzzing buzzing – to-ing and fro-ing.  
Nature is busy busy busy, all the day long.

2.

Down by the water – so many creatures!  
Insects and animals, flowers and trees.  
Badgers and beavers, bugs and beetles.  
Ducks and frogs, the birds and the bees.

Du-du-du-du...

*Badgers and beavers, bugs and beetles.  
Ducks and frogs, the birds and the bees.*

REFRAIN (2x)
