

## MAGICAL WEATHER

*Oh, it's so hot today... well, I can change that... with a bit of magic!*

Sometimes the weather makes you crazy.  
It's much too cold or much too hot.  
But the little witch is never lazy.  
With a bit of magic I can change all that:

I know how to make the rain fall.  
I can make the weather warm.  
I know how to make it cold and windy.  
I can make a thunderstorm.  
I know how to make the sun shine.  
I know how to make it snow.  
I know how to make it hail and drizzle.  
I can make the wind blow.

There may be thunder and lightning.  
How loud and windy it can get!  
Some people find that very frightening.  
But don't you worry, don't you fret.

I know how to make the rain fall.  
I can make the weather warm.  
I know how to make it cold and windy.  
I can make a thunderstorm.  
Let it thunder!  
Let it rain!

I know how to make the sun shine.  
I know how to make it snow.  
I know how to make it hail and drizzle.  
I can make the wind blow.  
I can make the wind blow.
