

CHILDREN, CHILDREN

Children, children, come together - every boy and every girl!
Children, children, come together from all over the world! (x 2)

Children from Africa,
Europe and Asia.
Children from Australia,
North and South America.

Even if you're very small.
Even if you're very tall.
This song is for you all.
Come on now, let's have a ball.

Children, children, come together - every boy and every girl!
Children, children, come together from all over the world!

Black, white,
Yellow and brown.
From the country,
From the town.
All you kids just sing along.
Sing with me this little song.

Children, children, come together - every boy and every girl!
Children, children, come together from all over the world! (x 3)

From all over the world!
