

MAGICAL THREE

1.
Looking for some magic?
Gather round and see:
A very special number!
That special number is me!

CHORUS:
One, two, three. Just look at me – magical three!
One, two, three. Just look at me – magical three!

2.
I've been this way for ages.
I cast this magic spell!
How I do it? I'll give you three guesses!
But no-one can really tell.

3.
Numbers are mostly, well, useful,
Not magical, you see.
But there are exceptions of course:
Take for example me!

CHORUS

4.
Now one is just a loner,
And two no more than a pair!
But three is really thrilling:
You feel magic in the air!

5.
Three witches, three kings, three wishes!
Three blind mice - you see?
From the Bible to the Fairy Tale
You keep meeting up with me!

6.
Now seven, who is a friend of mine,
Is also mysterious.
But 10 or 15 or 20
Are all so serious.

CHORUS
