

WE´RE FOUR

CHORUS:

We´re four
In this quartet.
Count us if you like,
And four is what you get!

1.

Spring and summer, autumn, winter:
All the seasons of the year.
Spades and clubs and hearts and diamonds:
All our playing cards are here.
For these and each and every other band or bunch of four
We have this little song for you with four beats to the bar:

CHORUS

2.

Earth and water, wind and fire,
Hey now, they´re a foursome too.
North and South and West and East.
Tell you where you´re heading to.
Yes all these things come just in fours and not in twos or threes.
And now I have four questions and I´d like four answers please:
Okay, are you ready?

BRIDGE

My table has how many legs? **Four!**
And my dog has how many paws? **Four!**
How many strings does a violin have? **Four!**
How many teeth has Grandpa got? ...!

We´re four... We´re four... We´re four... We´re four...
We´re four
In this quartet.
Count us if you like,
And four is what you get.

CODA

And four is what you get.
Yes we would take a bet!
So simply don´t forget:
We´re four.
