

THREE LEGS

I have a dog with three legs,
three legs, three legs.
With two ears and one tail.
But how many legs?
Three!

Dogs have mostly four legs,
four legs, four legs.
Dogs have mostly four legs,
my dog has just three.
It's all the same to me.

*Don't ask me why.
I don't know why.
Perhaps he had an accident.
Perhaps he was born like that.*

Dogs have mostly four legs,
four legs, four legs.
Dogs have mostly four legs,
my dog has just three.

It doesn't bother me.
It's all the same to me.
